Job Objective

Position as an engineer in an international environment with the possibility of learning new programming languages and technologies.

Summary Of Qualifications

- Keen eye for detail, 'making it work' is not good enough. Every small detail that can be improved should be improved.
- Capable of efficiently transferring knowledge to others. Experience in guiding lab sessions for bachelor students.
- Responsible, in team as well as individually. Knowing my personal task in a team project yet always supporting and carrying the team when necessary.
- Creative and innovative, being able to provide good solutions to problems.

Education

2016 – Present

Master of Industrial Sciences: Electronics Engineering, KULeuven

Focus Internet Computing

Currently enrolled, expected completion: June 2018

2015 – 2016

Bachelor of Industrial Sciences: Electronics Engineering, Universitat de València, Spain
Erasmus programme

2013 – 2017

Bachelor of Industrial Sciences: Electronics Engineering, KULeuven

Professional Experience

Job at KULeuven / Group T

September – December 2016

Responsible for guiding programming lab sessions to bachelor students and teaching them the necessary programming skills.

Summer job at Bpost

September 2014, July 2015, September 2016

Responsible for distributing mail.

Working autonomously with high sense of responsibility.

Achieved highest possible evaluation score by team leaders, 3 years in a row.

Leadership & teaching skills

Successfully taught programming lab sessions for industrial engineering bachelor students.

Unofficial team leader in several group projects, efficiently dividing and coordinating tasks among team members.

Teamwork skills

Achieved high grades (individual & team) in every group project during my education.

Programming skills

Good knowledge of Java and Android. Knowledge of C, C++, Ruby, Visual Basic and GIT.

Language skills

Dutch Mother tongue.

English Very good, participated in projects in an international environment and parts of my degree were taught in English.

Spanish Good, did an Erasmus programme in Spain with all courses taught in Spanish. Still taking Spanish classes to further improve.

French Basics, French class in high school.
